Wired for

Every Occasion

WIRE

A base that's anything but basic

- For use with fresh, silk and dried flowers
- Secure floral stems or embellishments to foam, straw and more
- Perfect for designing floral arrangements and bouquets

Floral wire comes in a variety of lengths and sizes for creating unique bouquets and arrangements. Use netting to secure arrangements in containers, foldable easels to showcase wreaths and decorations, and paddle or spooled wire to wrap bouquets with a better grip. Floral wire is great for fresh, dry or silk flower arrangements.
