

18" Florist Wire - Green (Enameled)

For use with fresh, silk and dried flowers.

FLORACRAFT®

Floral Wire Size Reference Guide

FloraCraft® offers floral wire in a variety of lengths and sizes for creating unique bouquets and arrangements. Use netting to secure arrangements in containers, foldable easels to showcase wreaths and decorations, and paddle or spooled wire to wrap bouquets with a better grip. Floral wire is great for fresh, dry or silk flower arrangements.

Easels, Heavy Duty - Green
provides a strong foundation for over-sized floral arrangements, picture frames and other hefty items

Easels - Green
perfect for presenting floral arrangements, wreaths, photo frames, award plaques, and more

Spoiled Wire - Green (Enameled)
used to tie floral stems together, strengthen and reinforce delicate or weak stems, or attach stems to wreath forms, floral crowns and garlands

Greening Pins - Bright
used to arrange flowers, moss or other cover foliage

Netting - Green (Painted)
used to secure arrangements in containers and for large scale installations

Paddle Wire - Green (Enameled)
same as spooled wire but in a paddle put-up

Binding Wire
decorative, paper-covered wire that adds a natural accent to floral designs
